City Bus Time Table Administrative System

Student Automatic Hall Ticket Generation System

Dairy Fresh Products Automation using Barcode

Granite shop Administrative System

Smart Railway Ticketing using Barcode Reader

Sand Lorry Fixing and Delivery Administrative System

International Labour Migration Maintenance System

Yoga Welfare Center Administrative System

Jio Service Center Automation System

Export Product Sales Automation System

Restaurant Table and Room Booking System

Flex Printing Management System

Multiplex Ticket Booking and Ordering App

Outdoor And Terrace Gardening Automation System

Marriage Contact Expenses Automation System

Organ Donation Automation and Maintenance System\

Student Bus Pass Automation System

Student Address Book Executive System

Virudhunagar Welfare and Locating System

Pet Shop Automation and Maintenance System

College Canteen Bill Automation System

Unique Citizen Card System

Post Office Customer Relationship System

Mobile Accessories Management System

Pizza Center Automation System

Airtel Service Automation System

Vehicle Parking Computerization System

Mall Maintenance and Service

Newspaper Agency Administrative System

Outdoor Gardening Automation System

Student Loan Executive System

Student Automatic ID Card Creator

Paint Shop Automation System

Blood Donor Automation System

Tuition Center Automation System

Courier Automation System

Examination Branch System

Crime Logger Security System

Student Intimation through SMS

Cargo Shopping with Mail Sending

Food Order and Intimation via SMS

Vehicle Showroom and Billing

Agro Chemical and Solutions management System

ATM Analysis and Management Process

City Bus Time Table Administration

Collecting Eye and Patient Care

College Placement Organization and Intimation through Email

Fireworks Shop Administrative System

Fish Shop Automation System

Gas Agency Executive System

Handicraft Administrative System

College Hostel Executive System

Internal Question Paper Automatic Preparation

Food Preparation Dealers Computerize System

Outdoor Gardening Execution System

Resort Room Allocation System

Apartment Automation System

College Finance Maintenance System

Food Order in railway

Student Gate Pass Automation System

House Allotment System

Transporter Lorry Billing

Milk Shop Management System

Multi Real Estate Business Corporation

Front end =PHP
Back end = MSQLI

Project Titles

Water Plant Web Portal

Online Library Automation System

Online Quiz and Evaluation

Agri Farm Connect for Farmer Welfare

Beauty Parlor Appointment Booking and Automation System

Dairy Farm Management and Billing System

Hospital Maintenance and Prescription Management System

House Rental and Property Fixing System

Online Calendar Shopping with Billing System

Online Employee Leave Maintenance System

Online Frozen Foods Ordering System

Online Rental Apartment and House Finder and Fixing

Online Super Market Billing and Administrative System

Matrimonial Website using AI Algorithm for better search

Customer Behavior relation to health care products by matching QR code

Outdoor Gardening Shopping System using Association Mining Rule

Online Tiles Shopping

School Management System (Attendance, Exam Result, Discussion)

Online News Portal

Online Job Portal (jobseeker)

Big Bazaar Shopping Portal using Association Mining Rule

Doctor Appointment System

Orphanage Management System

Student Academic Discussion Social Network

Hospital Management System

Shopping Portal Advance Version

Complaint Management system

Online Course Registration

Tourism Management System

Car Rental Project

Blood Bank & Donor Management System

Student Result Management System

Employee Leaves Management System (ELMS)

News Portal Project

Employee Record Management System

Directory Management System

Company Visitor Management System

Daily Expense Tracker System

Vehicle Parking Management System

Apartment Visitors Management System

Cyber Cafe Management System

Beauty Parlour Management System

Teachers Record Management System

Bus Reservation System

Online Pets Shopping

Online Bank Exam Training Portal

Online Gift Order using Air Algorithm

Back end = SQL Lite / SQL Server / Firebase

Project Titles

Apartment and Rental House Finder and Fixing App

College Handbook Automation App

Beauty Care Token Fixing and Order Placing Application

Food Wastage Reduction through Donation

Covid19 Patient Tracing App

Covid19 Helping Hand App

Stem Cell Find and Intimation App

Agri Mandee App for Farmer Welfare

Online Cracker Shopping App with Admin Automation Page

Android AI Assistant Chat Bot for Business

Driver Sleep Alert using Image Processing

Location Based Garbage Management System for Smart City

OnRoad Vehicle Breakdown Help Assistance

Digital Gram Panchayath Services

Train Platform Booking Application

Railway Ticket Booking System using QR code

Smart Two/ Four Wheeler License Viewing App

News Feed Application

Personal Assistant App

Placement Automation Application with SMS Alert

Department Smart Notice Board

Student Bus Pass Apply and Administrative App

Student Smart Result Viewer with E-Mail Notification.

Smart Table Booking and Food Ordering App

Bluetooth Chat Application

Online Student Discussion Application

Bank Exam Training App

Student College Bus Location Monitoring System using GPS

Android Student Elective Paper Selection App

Student Faculty Document Sharing Android Project

Android AI Diet Consultant

Smart Donor Bank Intimation and Notification App

Mobile Quiz for Inter-Collegiate

Android Voting System

Electricity Bill Payment App

Mobile Attendance Application

Department Association Maintenance and Notification App

Department Event Maintenance App for NAAC

Student Leave Letter Apply App

Alumni Portal App

Higher Studies Intimation App

Internal Mark Intimation through SMS

Medicine In-Take Alert App

Find Mobile by Sending SMS

Data Structure Tutorial App

EVS Study Tutorial App

Doctor Appointment Fixing App

Smart Railway Food Order App

Smart Travel Guide

Dental Lab Appointment Fixing App

Effective Student Interaction Application

Flex Printing Designer View and Automation App

Lorry Billing Automation App

Pedogogy (Coaching Center) Automation App

Shuttle Club Automation App

Smart Address Book

Student Education and Welfare Trust System

Vehicle Parking Automation App

Yoga Admission and Study App

GPS Smart Alarm during Train Travel

Smart Face Lock using Image Processing

Embedded / IOT Project Titles

Detect Obstacles for Blind Person using Android App - (Android)

Scrolling Notice Board using Mobile Bluetooth - (Android)

Remote Controlled Robot for Rescue using Mobile App - (Android)

Home Automation using Mobile App - (Android)

War Field Spying Robot to Detect Human using Mobile App - (Android)

Covid19 Patient Temperature Monitoring with Call Alert

Child Safety - ChildVest - The parental control application

Voice Automation Assistant with Medical Help for COVID19 Patient using Echo Dot

Smart Voice Mosquito Killer using NodeMCU and Google Assistant

Voice Based Hot Cold Water Dispenser System using NodeMCU

IoT Based CCTV Image Capture & Notification for Security Purpose using Rasbperry Pi

Automatic Vehicle Accident Detection and Send Intimation using GPS & GSM

Railway Gate Automation using Mobile App - (Android)

Women Security Assistance Mobile App - (Android)

Gas Leakage Detection and Intimation by Calling

Automatic Gas Booking by Monitoring Gas Level

Bank Token Number Display with Voice

Automatic Door Operation using SMS - (Android)

Glucose Level Monitoring and Intimation by Calling

Wifi Parking Automation System - (Android)

Vehicle Theft Detection System

Vehicle Accident Overcome System

Automatic School Bus Intimation from Steps

Alcohol Detection of Driver to Overcome Accident

Coin Based Mobile Battery Charger

Fire Alarm and Smoke Detection Alert System

Smart Automatic Water Tank in Home

Train Distance Indicator for Unguarded Level Crossing

Anti - Theft Alert System for Two Wheelers

Automatic Irrigation System by Sensing Soil

GPS Border Alert for Fisherman

Dam Controlling to overcome Flood through Internet - (Webpage)

Heart Pulse Rate Monitoring and Intimation by SMS

IoT Smart House using Wifi - (Android)

Garbage Collection Intimation using SMS

IoT enabled smart lighting systems for smart cities

IoT based smart school bus monitoring and notification system

Automated Urban Drinking Water Supply Control - (Webpage)

Facilities offered for the students

- ✓ A clear view on what is meant by project and what are the ideas you can get from that.
- ✓ A full analyze about their front end and back end before they enter into their project.
- ✓ Before enter into their project, a detailed exercise on their front end and back end.
- ✓ A complete help will be given for their both mini and major projects.
- ✓ A detailed view about their documentation and we develop the students with the
- ✓ theoretical and practical knowledge on every topic of their documentation.
- ✓ Any theoretical and practical question will be clarified under a well known staffs.
- ✓ We develop the students with a question that will be in a project viva, during their on-project time.
- ✓ And finally an overview of all other front end and back end platforms.
